Re: In the Matter of
Unlicensed Operation in the 3650-3700 MHz, ET Docket No. 04-151;
Additional Spectrum for Unlicensed Devices Below 900 MHz and the 3
GHz Band, ET Docket No. 02-380; and
Amendment of the Commission's Rules With Regard to the 3650-3700
MHz Government Transfer Band, ET Docket No. 98-237.

Dear Ms. Dortch:

On June 13, 2005, Peter Pitsch and Marjorie Dickman of Intel met with Sam Feder and Fred Campbell of Chairman Kevin Martin's office regarding the above proceedings.

In the course of the meeting, Intel referenced its Petition for Reconsideration, filed on June 10, 2005, with Co-Petitioners Redline Communications Inc. and Alvarion, Inc.

Intel stated that the 3650-3700 MHz band should be allocated in a manner which would provide expeditious, low cost access to this spectrum for rural WISPs and promote efficient use of this spectrum in congested MSAs. Specifically, Intel offered a compromise proposal whereby the FCC would prescribe non-exclusive licensed use (with no contention protocol) in rural areas and licensed use in the Top 50 MSAs.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to each of the abovementioned parties. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Marjorie J. Dickman
